Mohannad Shaaban

Frontend Developer

Motivated Frontend Developer with a strong passion for crafting modern, responsive, and user-centered web interfaces. Skilled in HTML, CSS, JavaScript and React. Eager to contribute to real-world projects within a professional team, while continuously improving and expanding my frontend development skills.

Core Qualifications

- Built 10+ fully responsive and functional web interfaces, focusing on performance, accessibility, and user experience.
- Known for writing clean, reusable, and well-structured code using modern frontend technologies.
- Proficient in UI/UX design principles, DOM manipulation, responsive layouts, and debugging complex issues in the browser.
- Experienced in ensuring cross-browser compatibility and optimizing performance across different screen sizes and devices.
